

Our changing climate and sustainable future

Sector 39

Steve Jones

With over 25 years experience of permaculture design, Steve is also a certified business studies and economics teacher and has a degree in sustainable development.

Resource available – two days per week.

Jack Hunter

Jack is a PhD candidate in the Department of Archaeology & Anthropology at the University of Bristol, and a lecturer in Sociology and Religious Studies at North Shropshire College.

Resource available – one day per week.

Mick Clifton

Mick has a degree in Community Development and has spent most of his career working in Shetland on school, youth and community projects as well as working for the RSPB and a local Wildlife Trust as an Education Officer.

Resource available – one day per week.

Partnership between S39 and LHS

- Student led transition design team to identify opportunities and to plan focus of work
- School resource audit
- Micro/school based enterprises
- Renewable energy
- Public information sharing events
- International school links, Uganda/Kenya
- School visit to Busoga high school Uganda
- VoxPop social audit project
- Community growing

Linking project activity to curriculum areas

- English/ Welsh language: reportage, messaging, communications
- Science: Physics, biology
- Politics/current affairs
- Business studies/economics
- Land based studies
- Art
- Geography
- Eco School Committee
- International dimension - Wales/ Uganda links

Next steps

- Focused work in the Spring Term and beyond with teachers and students
- Assemblies, one lesson “bite size” visits, after school activity or more complex “term specific” programme
- Contact with Eco School committee
- Undertake planning phase
- Commence a student led transition phase
- Enhance links with wider community
- Facilitate long lasting positive change in terms of living with climate change
- Funding
