

Name:

We want your feedback! What have you found good about the course so far? What have you found challenging about it? What could we do to make it better? Is there anything you would particularly like us to explore?

1

In your own words, explain the Daisy World model. What is the key principle it illustrates?

2

What can we learn from natural systems? Write down some ideas, then we will discuss them as a class.

3

Draw your own double feedback loop:

4
